

Eggfood **Specific Bird Food**

Use

This product is intended for small parrot species of the genera *Nymphicus*, *Eolophus*, *Aratinga*, *Platycercus*, *Melopsittacus*, *Agapornis*, *Neophema*, etc.

It is formulated to supplement the diet of reproductive birds at the chick-rearing stage.

Directions for use

It is a supplementary food for reproductive birds of *Psittacidae* at the chick-feeding stage.

It must not be used as an exclusive diet.

It should be offered dry in a separate feeder freely accessible to the birds.

Store in a cool dry place after opening (while refrigeration is not advised, freezing is possible if it is hermetically sealed).

Daily intake

Bird consumption varies according to the number of chicks being raised and their stage of development.

Composition

Cereal grains, products and by-products of cereal grains, vegetable oils, dried whole egg, dried brewer's yeast, products and by-products of tubers and roots, products and by-products of oil seeds and fruits, minerals, dried alfalfa, inulin (0,05%)

Additives

Mixture of flavouring compounds (contains *Yucca schidigera* extract 0,015%); *Tagetes erecta* extract / Sepiolite / Tocopherol-rich extracts of natural origin, palmityl-6-ascorbic acid / Compounds of trace elements (ferrous chelate, cupric chelate, manganese chelate, zinc chelate; calcium iodate anhydrous and hydroxy-analogue of selenomethionine) / Vitamins, pro-vitamins and chemically well-defined substances having similar effects (A, D3, E, C, K, B1, B2, B6, B12, Pantothenic acid, Niacin, Folic acid, Biotin, Choline chloride, B-carotene, Betaine anhydrous)

Analytical constituents

Moisture 8,0%, Crude protein 22,0%, Crude oils and fats 15,0%, Crude fibres 2,5%, Crude ash 4,6%

Package sizes

1 kg / 5 kg bags
