

Mini Hand Feeding Formula

Use

This product is intended for hand-rearing small-sized seed-eating psittacine chicks of the genera *Nymphicus*, *Eolophus*, *Aratinga*, *Platycercus*, etc.

Directions for use

It is a **continuation hand feeding formula**. As a general rule it is recommended from the moment the feathers begin to emerge. Nevertheless, in the case of cockatiels, it is indicated from the 8 days of life, just after the Psittacine Crop Milk (to take into account that the neonatal hand-feeding formula is not indicated for cockatiels).

It is designed to constitute 100% of the parrot's diet. During weaning stage, it should be gradually replaced by solid food.

Mix with lukewarm water to a concentration of 20-25% (similar texture of a shaken yogurt).

Store in a cool dry place after opening (while refrigeration is not advised, freezing is possible if it is hermetically sealed).

Daily intake

Average consumption of formula per serving is around 7-10ml per 100g of body weight. It is advisable to provide each individual chick the adequate amount and number of feeds according to their stage of development. Must take into account that parrots crop should be empty before each feeding.

Composition

Cereal grains, products and by-products of oil seeds and fruits, vegetable oils, legume seeds, products and by-products of cereal grains, minerals, dried whole egg, fructose, dried brewer's yeast, inulin (0,05%)

Additives

Mixture of flavouring compounds (contains *Yucca schidigera* extract 0,015%); *Rosmarinus officinalis* extract; *Tagetes erecta* extract / Sepiolite / Tocopherol-rich extracts of natural origin, palmitoyl-6-ascorbic acid / Compounds of trace elements (ferrous chelate, cupric chelate, manganese chelate, zinc chelate; calcium iodate anhydrous and hydroxy-analogue of selenomethionine) / Vitamins, pro-vitamins and chemically well-defined substances having similar effects (A, D3, E, C, K, B1, B2, B6, B12, Pantothenic acid, Niacin, Folic acid, Biotin, Choline chloride, B-carotene, Betaine anhydrous)

Analytical constituents

Moisture 7,0%, Crude protein 21,4%, Crude oils and fats 10,0%, Crude fibres 4,2%, Crude ash 5,3%

Package sizes

350 g / 1 kg / 5 kg bags
