

Mini Maintenance Formula

Use

This product is intended for small-sized species of the genera *Nymphicus*, *Eolophus*, *Aratinga*, *Platycercus*, etc.

Maintenance foods are formulated to feed pet birds and reproductive birds during non-reproductive periods. Their composition meets the nutritional requirements of birds at these times.

Directions for use

It is designed to constitute 100% of the parrot's diet in non-reproductive periods. However, if fresh fruit and vegetables are provided daily to lend variety to the diet, we recommend that Psittacus should constitute no less than 70-80% of the total intake. During the breeding season, parrots should always have access to our Psittacus Eggfood and Psittacus Calcium Grit Fine.

No vitamin or mineral supplements should be given to parrots whose basic principal food is Psittacus.

It is appropriate to renew food and water daily.

Store in a cool dry place after opening inside a closed container.

Daily intake

Birds consumption is around 10% of their body weight daily. For example, a cockatiel consume about 10g per day.

Composition

Cereal grains, products and by-products of oil seeds and fruits, vegetable oils, dried whole egg, dried brewer's yeast, products and by-products of tubers and roots, minerals, inulin (0,05%)

Additives

Mixture of flavouring compounds (contains *Yucca schidigera* extract 0,015%); *Rosmarinus officinalis* extract / Sepiolite / Tocopherol-rich extracts of natural origin, palmitoyl-6-ascorbic acid / Compounds of trace elements (ferrous chelate, cupric chelate, manganese chelate, zinc chelate; calcium iodate anhydrous and hydroxy-analogue of selenomethionine) / Vitamins, pro-vitamins and chemically well-defined substances having similar effects (A, D3, E, C, K, B1, B2, B6, B12, Pantothenic acid, Niacin, Folic acid, Biotin, Choline chloride, B-carotene, Betaine anhydrous)

Analytical constituents

Moisture 7,0%, Crude protein 15,1%, Crude oils and fats 7,5%, Crude fibres 3,3%, Crude ash 4,1%

Package sizes

450 g / 12 kg bags
