

## Parrot Maintenance Formula

---

### Use

This product is a versatile formula for several medium and large-sized psittacine species of the genera *Amazona*, *Psittacus*, *Cacatua*, *Ara*, *Psittacula*, etc.

Maintenance foods are formulated to feed pet birds and breeding birds during non-reproductive periods. Their composition meets the nutritional requirements of birds at these times.

Not suitable for cockatiels and other small-sized Psittacines.

---

### Directions for use

It is designed to constitute 100% of the parrot's diet in non-reproductive periods. However, if fresh fruit and vegetables are provided daily to lend variety to the diet, we recommend that Psittacus should constitute no less than 70-80% of the total intake.

No vitamin or mineral supplements should be given to parrots whose basic principal food is Psittacus.

It is appropriate to renew food and water daily.

Store in a cool dry place after opening inside a closed container.

---

### Daily intake

Birds consumption varies between 5% and 8% of their body weight per day in the case of medium-sized species (for example, African Grey parrots) and up to 10% for smaller species.
