

Vitamin-Mineral Supplement

Use

This product is a supplementary food for birds of the *Psittacidae* family.

It is used to correct typical vitamin, mineral and trace element deficiencies of seed mixtures. This powdered product is designed to be added to a moist mixture of sprouts, boiled food, fruit and vegetables.

Directions for use

It needs to adhere at food of the bird. Before or during the mixing process, sprinkle this powder onto the wet ingredients of the diet (sprouts, boiled food, fruit and/or vegetables) or onto the whole diet if it contains wet ingredients.

In birds fed on a diet consisting of 70% or more of complete feed, we recommend using this product to balance only the part of the diet constituted by seeds.

Daily intake

Birds consumption is around 4% of dry weight of the seeds offered.

Composition

Minerals, cereal grains, dried brewer's yeast, products and by-products of oil seeds and fruits, vegetable oils, legume seeds, products and by-products of cereal grains, sugars

Additives

Mixture of flavouring compounds (contains *Yucca schidigera* extract 0,015%); *Rosmarinus officinalis* extract / Sepiolite / Tocopherol-rich extracts of natural origin, palmityl-6-ascorbic acid / Compounds of trace elements (ferrous chelate, cupric chelate, manganese chelate, zinc chelate; calcium iodate anhydrous and hydroxy-analogue of selenomethionine) / Vitamins, pro-vitamins and chemically well-defined substances having similar effects (A, D3, E, C, K, B1, B2, B6, B12, Pantothenic acid, Niacin, Folic acid, Biotin, Choline chloride, B-carotene, Betaine anhydrous)

Analytical constituents

Moisture 6,0%, Crude protein 17,0%, Crude oils and fats 7,7%, Crude fibres 2,7%, Crude ash 35,0%, Lysine 0,9%, Methionine 1,3%, Calcium 3,0%, Phosphorus 1,9%, Sodium 0,05%

Package size

5 kg bags
